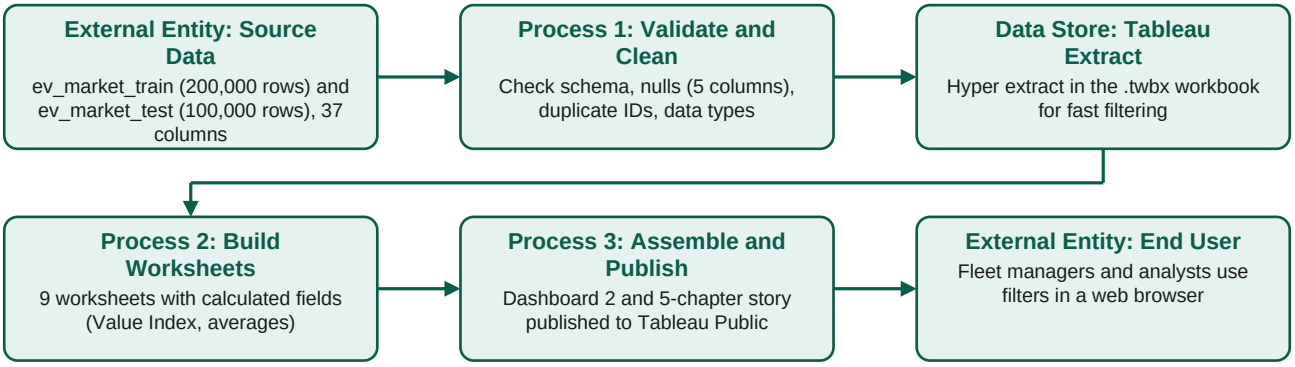
Project Design Phase-II: Data Flow Diagram and User Stories

Field	Details
Date	02 November 2026
Team ID	N/A (Individual Project)
Project Name	EV Value & Longevity Analytics Dashboard
Prepared by	Piyush Malviya
Maximum Marks	4 Marks

A Data Flow Diagram shows how data enters, changes and leaves the system. In this project the data flows from two CSV files into a published interactive dashboard.

Data Flow Diagram



Data quality notes found while validating: both files share the same 37 columns and no vehicle IDs overlap. Five columns contain missing values (battery cycle life 1.9%, resale value 3.1%, infotainment screen 1.6%, annual sales 1.0%, customer rating 2.0% in the training file). One duplicated vehicle ID exists in the training data. Averages ignore missing values.

User Stories

User Type	Epic	Story No.	User Story / Task	Acceptance Criteria	Priority	Release
Fleet Procurement Manager	Overview	USN-1	As a fleet manager, I want KPI tiles for total sales, average price, range and rating so I can judge the market quickly.	Tiles match values computed from the data.	High	Sprint-1
Fleet Procurement Manager	Value Analysis	USN-2	As a fleet manager, I want to compare price per km of range across categories so I can find the best value.	Value Index calculated and shown by category.	High	Sprint-2
Pricing Analyst	Price Positioning	USN-3	As an analyst, I want a price vs range scatter so I can see where each category sits.	Scatter uses averages and a log price axis.	High	Sprint-2
Pricing Analyst	Battery Insight	USN-4	As an analyst, I want cycle life and degradation by battery type so I can compare chemistries.	Chemistry filter updates every chart.	High	Sprint-2

User Type	Epic	Story No.	User Story / Task	Acceptance Criteria	Priority	Release
Reviewer	Benchmarking	USN-5	As a reviewer, I want a top-10 manufacturer view so the chart is readable.	Top 10 filter applied to Sales by Manufacturer.	Medium	Sprint-2
Any user	Access	USN-6	As a user, I want to open the dashboard from a web link without installing Tableau.	Workbook published and link opens in a browser.	High	Sprint-3
